Allowable Subject Matter

1. **Claims 1-12**, are allowed.
2. The following is an examiner's statement of reasons for allowance:

Regarding **claim 1**, the present application teaches a method of managing mobility of a mobile station across a WLAN and WWN in which an MSC has been provisioned to act as a serving MSC for the WLAN. The application teaches the mobile issuing a registration request to the serving MSC for the WLAN, in response to the serving MSC for the WLAN causing MSC for the WWAN to recognize that the mobile station is registered with the serving MSC for the WLAN and that the mobile station is no longer served by a prior MSC and mobile station communicating to entities outside of the WLAN by communicating with the WLAN via WLAN protocol and the WLAN communicating with the WWAN via the serving MSC for the WLAN as specifically mentioned on claim 1.

The closest prior art such as Bridgelall (US Publication 2002/0085516 A1) teaches a method of managing mobility of a mobile across a WLAN and WWAN. Bridgelall's processes of seamless vertical roaming between a WLAN and a WWAN. Bridgelall does not teach a process of roaming from WLAN to WWAN when a dual mode terminal sense degradation in the WLAN (high packet error rates, frequent rates scale back, consistent signal strength

degradation), and a process which involves requests to and/or actions taken by a serving MSC for a WLAN.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
